

August 26, 2019

Dear Village Residents,

The Village Board, President, and Clerk would like to thank all of our residents for their patience and understanding throughout the recent Main Street re-construction. We can certainly be thrilled with the “new” look our Village Main street has, and also proud of the comments many of us received on the patience, friendliness, and respect shown to the construction engineers and workers.

Also, please be aware that the Village has contracted with Jon Schulz as our new building, electrical, and plumbing inspector effective Sept. 1, 2019. Jon has worked closely with Paul Birschbach, making this a very simple transition. His office is at the same location, 18 W. Main Street, Chilton, WI.

Jon’s phone number is 920-850-2867, email: jk_electric69@yahoo.com. Please contact him regarding any type of permit you may need. There is a link on the Village website with further information and instructions, with a fee schedule that should answer any questions you may have regarding permit requirements. Please note that siding, roofing, deck, and window improvements, as well as electrical upgrades require a building permit from the Village.

Our Utility Accountant has informed us that he received notice from the Public Service Commission that the Village qualifies for a 3% water rate increase. At the May, 2019 Village Board meeting, the trustees approved a 3% water rate increase, with no increase to sewer rates, effective 01/01/2020. An example of an average water rate cost increase will be sent along with the 3rd Quarter water bill.

As always, please check the Village website at stcloudwi.com from time to time for further updates. Thank you.

Sincerely,

Ryan Gebhart, President
Village Board of Trustees
